I am a fifteen year resident of the Gunnison Valley, an accomplished skier and mountaineer, and an established member of the community. I am looking for part-time employment as Ski Patrol.

Current Employment

- **Assistant Professor/ Honors Program Director, Western Colorado University.** July 2009–
I currently serve as the Director Western's Honors Program. Additionally, I am the primary data analysis and statistics person on campus. I came to Western Colorado University for a temporary position in 2009. It turned out that I liked the location and my colleagues enough to stay indefinitely.
-

Relevant training and licensing

- **EMT-B**, *RC Health Services*. CDPHE license Q242446
 - **AIARE Level 2**, *Crystal Mountain Ski Patrol*. 2009
 - **AST-1**, *Avalanche Canada*. 2008
 - **WFR**, *Aerie Backcountry Medicine*. 2006
-

Skiing History

- **CBMR**. I have been a passholder since 2009. I know the mountain well, and am comfortable in all terrain.
 - **Crested Butte Area Backcountry**. I have explored the surrounding terrain extensively, from the Castles and the Ohio Creek Waterfall to the Paradise Divide region to Teocalli Mountain. Of course, there is a lot more terrain left to discover.
 - **Irwin Bootpacking**. I did this a few seasons, most recently at the beginning of the 2019-2020 season.
 - **Rainier**. I carried my skis to the summit plateau of Mt. Rainier in July 2016. Conditions meant that I also carried them back down a couple thousand feet, but I did ski a significant part of the route (Emmons Glacier).
 - **Denali**. In June of 2013 I climbed Denali and skied from the summit. My summit route was the West Buttress. I also climbed most of the West Rib and skied the adjacent face. While camped at 14,000' Camp, I skied several smaller lines nearby. This was a solo trip.
 - **BC and Washington State**. During the 2000s I lived in Seattle, WA and Vancouver, BC. At times my entire non-professional life revolved around skiing, almost entirely in the backcountry.
 - **Ski Santa Fe**. My first ski area was the one in my hometown of Santa Fe, NM. I skied gates for a couple of seasons as a kid, and spent a season teaching during a year off from college.
-

Education

- **Ph.D in Mathematics, University of Washington**. 2006.
 - **M.S. in Mathematics, University of Washington**. 2003.
 - **B.A. in Mathematics, Reed College**. 1999.
-

Other notes and past projects

- Data Analyst, Gunnison Valley Winter Recreation Study.
 - Board of Directors, Mountain Roots Food Project. 2011–2016.
 - Trail Building Volunteer, Gunnison Trails.
-
